

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, Ph.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania,* and GROVER C. HUBNER, Ph.D., *Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

DESCRIPTIVE MINERALOGY

By WILLIAM SHIERLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

SOIL PHYSICS AND MANAGEMENT

By J. G. MOSIER, B.S., *Professor of Soil Physics, University of Illinois,* and A. F. GUSTAFSON, M.S., *Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfils three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Physiology, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

GENERAL ZOOLOGY

By A. S. PEARSE, *Associate Professor in the University of Wisconsin.*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 386 pages.

Henry Holt & Co., New York

HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER of the *Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, *New York City.*

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

Publications of Carnegie Institution of Washington

The publications of the Institution now number over 350 volumes, the subjects including Anatomy, Archæology, Astronomy, Botany, Chemistry, Economics and Sociology, Embryology, Experimental Evolution and Heredity, Engineering, Folk-Lore, Geology, History, International Law, Literature, Mathematics, Medicine, Nutrition, Philology, Physics, Zoology. Classified and descriptive lists will be sent postpaid on application.

Botany and Related Subjects *In Press*

248. BRITTON, N. L., and N. N. ROSE. The Cactaceae. Descriptions and Illustrations of Plants of the Cactus Family. Quarto in 4 vols. Volume I will appear in June or July, 1919. It will be illustrated by 301 text-figures and 36 plates; of the latter, 28 are in colors.
286. WEAVER, JOHN E. The Ecological Relation of Roots. Octavo.
287. SPOEHR, H. E. The Carbohydrate Economy of Cacti. Octavo.
289. DOUGLAS, A. E. Climatic Cycles and Tree-growth. Octavo.
290. CLEMENTS, FREDERIC E. Plant Indicators: The Relation of Plant Communities to Conditions and Practices. Octavo.
297. MACDOUGAL, D. T. Hydration and Growth. Octavo.

Orders for above publications may be made through book-sellers or sent directly to the Institution.

All communications should be addressed to

**CARNEGIE INSTITUTION OF WASHINGTON
WASHINGTON, D. C.**

Marine Biological Laboratory

Woods Hole, Mass.

INVESTIGATION

Entire Year

Facilities for research in Zoology, Embryology, Physiology and Botany. Seventy-six private laboratories, \$100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is \$50.00.

INSTRUCTION

July 2 to August 12,
1919

Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, \$50. A lecture course on the Philosophical Aspects of Biology and Allied Sciences is also offered.

SUPPLY DEPARTMENT

Open the Entire Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Price lists of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For price lists and all information regarding material, address

GEO. M. GRAY Curator, Woods Hole, Mass.

The annual announcement will be sent on application to the Director, Marine Biological Laboratory, Woods Hole, Mass.

SCIENCE

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE

FRIDAY, OCTOBER 3, 1919

Epidemiology and Recent Epidemics, Dr. Simon Flexner.
The New International Union of Pure and Applied Chemistry.
Professor Edward W. Washburn

Scientific Events:—

Gift for the Improvement of Medical Education in the United States; Lectures on Popular Science at the University of California; The American Society of Naturalists; Award of the Willard Gibbs Medal.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:

The Rigidity of the Earth, Professors A. A. Michelson and Henry G. Gale. An unusual Mirage. Dr. A. A. Knowlton.

Quotations:—

The Rockefeller Foundation.

Scientific Books:—

Bent on Life Histories of North American Diving Birds.
Harry C. Oberholzer.

Special Articles:—

Visibility of Bright Lines. Dr. Louis Bell.

Single Numbers 15 cents

FRIDAY, OCTOBER 10, 1919

Engineering Service before, during and after the War. Dr. Charles A. Parsons.

A Question concerning the Nature of Velocity. Professor Tenney L. Davis.

Jacques Danne. Dr. Gerard L. Wendt.

Scientific Events:—

Expeditions from the University of California; The American Physical Society; The Red Cross and Professor Richard P. Strong.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

Emil Fischer after the War. Dr. Vernon Kellogg. The Auroral Display of September 18. Professor C. B. Waldron. The Auroral Displays and the Magnetic Needle. William F. Rigge.

Quotations:—

Science and the Press.

Scientific Books:—

Fisher's Starfishes of the Philippine Seas and Adjacent Waters. Dr. Hubert Lyman Clark.

Notes on Meteorology and Climatology:—

Agricultural Meteorology. Dr. Charles F. Brooks.

Special Articles.

SCIENCE PROGRESS

A QUARTERLY REVIEW OF SCIENTIFIC THOUGHT, WORK AND AFFAIRS

EDITED BY SIR RONALD ROSS, F.R.S., D.Sc., M.D., Etc.

SCIENCE PROGRESS owes its origin to an endeavor to found a scientific journal containing original papers and summaries of the present state of knowledge in all branches of science. The necessity for such a journal is to be found in the fact that, with the specialization which necessarily accompanies the modern development of scientific work and thought, it is increasingly difficult for even the professional man of science to keep in touch with the progress achieved and the trend of thought in subjects other than those in which his immediate interests lie. This difficulty is felt by teachers and students in schools and colleges, and by the general educated public interested in scientific questions. SCIENCE PROGRESS claims to have filled this want.

Published early in January, April, July, and October, by John Murray, 50a, Albemarle Street, London, W., England. Price of a single number is 6/- net. Annual subscription (including postage) 25/6.

Important Recent Special Publications of the Philippine Bureau of Science

SPECIES BLANCOANÆ: A critical revision of the Philippine species of plants described by Blanco and by Llanos. By E. D. Merrill. 424 pages. Postpaid \$2.25.

PHILIPPINE WATER SUPPLIES: By G. W. Heise and A. S. Behrman. 218 pages and 19 plates. Postpaid \$1.75.

AN INTERPRETATION OF RUMPHIUS'S HERBARIUM AMBOINENSE: By E. D. Merrill. 596 pages and 2 maps. Postpaid \$3.00.

The Philippine Journal of Science, a monthly (no longer issued in sections), per year \$5.00.

A list of the publications of the Philippine Bureau of Science and a sample copy of the Philippine Journal of Science will be sent upon request.

The Scientific Monthly

Entered as second-class matter October 1, 1916, at the post-office of Lancaster, Pennsylvania,
under the Act of March 3, 1879

PUBLISHER'S NOTICE

It has become necessary to increase the subscription price of THE SCIENTIFIC MONTHLY to Five Dollars a year. All readers know to their misfortune that this increase is less than that which has taken place during the past five years in the cost of many necessities of life. The price of the paper on which the magazine is printed has increased 147 per cent. Unfortunately the salaries of scientific and professional men and the incomes of libraries and educational institutions have not increased in proportion to the cost of living, and it is consequently with great regret that we announce the increase in the subscription price of the MONTHLY. The new price, however, is the same as it was for THE POPULAR SCIENCE MONTHLY from its establishment in 1872 to 1900, at which later date it was decreased to secure a larger circulation and a wider influence.

THE SCIENTIFIC MONTHLY is as much an educational and scientific institution as is a library, a museum or a university. It may be read each month by as many as 30,000 people. No university has so many students; few libraries or museums have a thousand visitors a day. The libraries, museums and universities could not exist without endowments or support from taxation. Our scientific journals are supported largely by scientific men who give their services as contributors and editors without payment or with inadequate payment.

If 10,000 additional subscribers could be obtained for THE SCIENTIFIC MONTHLY, it would be possible to pay contributors a just return for their work and at the same time to make the contents of the journal more timely and more interesting. When it is remembered that by the applications of science the productivity of labor has been increased fourfold and the length of life doubled, it seems a small return for scientific men to be paid liberally for their services and for scientific journals to be adequately supported.

We trust that in the interest of the journal, of science and of education no subscription will be withdrawn owing to the inevitable increase in nominal cost, but that, on the contrary, increased numbers of subscribers will make it possible to improve the journal and strengthen its influence.
